to accompany the award of the

Joint Meritorious Unit Award

to the

United States European Command Joint Analysis Center

The United States European Command Joint Analysis Center, distinguished itself by exceptionally meritorious achievement from 1 October 1991 to 1 October 1993. During this period, the Joint Analysis Center provided exceptionally timely and high-quality intelligence support for the successful execution of US, NATO, UN, and Coalition Force operations. The Joint Analysis Center, established in October 1991, began all-source and specialized intelligence operations 2 years ahead of schedule to meet theater intelligence needs while having only a small portion of its programmed resources. Through the extraordinary efforts and initiative of its personnel, the Joint Analysis Center provided a continuous flow of intelligence products to the Operations PROVIDE COMFORT, PROVIDE PROMISE and other theater forces and commanders on an around-the-clock basis. By their exemplary performance of duty, the members of the Joint Analysis Center have brought great credit upon themselves, the Armed Forces of the United States, and the Department of Defense.
